

SOFTWARE INFRASTRUCTURE

We help you to maximise IT
benefits while cutting cost.
You save.

We help you to maximise IT benefits while cutting cost. **You save.**

Comztek's Software Infrastructure Business Unit focuses on a limited number of key brands for the business market.

Covering operating systems and networking software, server console and terminal emulation as well as graphics and e-Paper software, the Unit caters for the needs of business users looking to derive the most benefit from their networking and business infrastructure while at the same time reducing overheads.

The Software Infrastructure Business Unit acts as a business partner to its reseller and channel members, helping them to complete and develop solutions as per their customers' requirements.

Focused products, focused support

Microsoft:

Server and desktop operating system software, network management and office productivity suites. Desktop programs of servers offering solutions that cover business intelligence and enterprise project management.

- Servers
- Operating systems
- IT operations
- Application platform
- Security
- Business productivity
- Developer tools
- CRM

Novell:

Open enterprise software. Offering

security and identity without limiting your ability to do business. Resource management takes control of everything from handhelds to workstations.

Attachmate:

Through Attachmate, Comztek offers a host connectivity solutions including:

- terminal emulation.
- secure communications management with a complete range of encryption, authentication and data integrity solutions and PC lifecycle management.
- Comprehensive management tools to deploy software, migrate operating systems and hardware, secure desktops, and track IT assets easily.

Adobe:

Software for the:

- print publishing
- digital imaging
- web design & development
- video & audio markets
- e-Learning software
- the complete Acrobat family (create, manage, view and for PDF files).

In addition to managing and growing its software licensing activities, the Unit also provides resellers with solutions that combine more than one of the above brands, which may compliment each other.

The Business Unit's dedicated channel and business development managers provide resellers with the expertise required to give not only better service to their existing customers, but also from their businesses by equipping them with the knowledge needed to understand where specific technologies fit into the market and to help them target specific business opportunities.

Software Infrastructure
